Answered: 226 Skipped: 0

Q8. Comments about the Make George Town Yours Projects

Well done on improving the look and feel of our town.

Over all I think has improved the look of the Main Street, and it's inclusive nature.

Great leadership has led to great project and community based/ grounded enhancement groups

Keep ip the good work, can't wait to see the art space project come to reality

It's very comprehensive ,feasible and beneficial.

I'm very happy with all that is going on to improve the look of our little town.

The Main Street and surrounding areas are looking great.

Looking forward to see what this next project is

It seems designed to draw more attention to Georgetown and make the city a unique place in the hearts of residents and visitors in various ways

Having only just moved to George Town I am impressed by the community spirit that is evident when venturing out. I think the business enhancement is extremely important to showcase the wonderful shops George Town has on offer and to promote more businesses to open.

Great work so far the Main Street is looking great

Great efforts, some good ideas, looking great, maybe some further advertising / posters about getting involved or what's happening

Fantastic work by all involved

Georgetown is a place full of history and vitality, and I am happy to contribute to such a fascinating project.

I think continuing to beautify the Main Street is great and may lead to new businesses opening up.

Keep up with the great projects in and around George Town

You guys are doing an amazing job. Keep it up!

Fabulous. Has made such a difference to the look of the Main Street. Well done!

Thanks to the people who put in so many hours to make these projects happen

The new improvements are outstanding.

Mobile improvements, such as the planters and the parklets have fantastic flexibility, allowing them to be used in a range of different circumstances and to be redirected in the event other projects impact their locations.

All of these projects have added a new vibe to George Town main street giving it a pop of colour. The street gardens are wonderful addition for colour, scent and some accessing some food items for home. The new parklets have added more seating and a sense of comfort and more discrete setting in the park and main street.

Keep up the AWESOME projects. Very vibrant and exciting. Looooove your work.

As a local for over ten years, I would just like to thank everyone who has made our little community look so amazing and I am proud to be a part of the community so thank you and please keep making George Town beautiful

All projects make the town look more inviting for residents and tourists

The projects all look fantastic! It's great to see business and the community working together to improve the amenity of George Town for the people that live here and visitors. It's positive that this has been done with the support of the Council, State Government and local businesses. Looking forward to seeing the art project come to fruition. Is there a stage 2 series of projects by Make George Town Yours or the Council?
